**Gait disorders**  
**General orthopaedics**

Consulting from  
**North Adelaide**  
**Elizabeth Vale**

Dr Philip Brook is an orthopaedic surgeon with over two decades' experience treating all forms of musculoskeletal problems in children and adults (excluding adult spinal problems). He has a particular interest in hip and knee reconstruction and replacement, and gait disorders.

In private practice at Orthopaedics SA, Dr Brook provides support to patients at Memorial Hospital, and Calvary Central Districts Hospital. He is a Visiting Medical Specialist at the Women's and Children's Hospital and, formerly, at the Lyell McEwin Hospital. He has worked extensively in the UK, where he was a Senior Orthopaedic Fellow at Wexham Park and Heatherwood Hospitals (Slough and Ascot respectively), a Senior Lecturer at the University of Sheffield and Honorary Consultant Orthopaedic Surgeon at Sheffield's Northern General Hospital.

Dr Brook completed his original medical training at the University of Adelaide in 1983 and obtained Fellowship of the Royal Australasian College of Surgeons (Orthopaedic Surgery) in 1994. He is a Fellow of the Australian Paediatric Orthopaedic Society and Australian Orthopaedic Association (AOA). Undertaking hospital inspections on their behalf, Dr Brook is also a member of the AOA's Curriculum and Continuing Professional Development Committees. Dr Brook previously held positions of Director of Training at the Women's and Children's Hospital and State Chair of Orthopaedic Training with the AOA.

## About Orthopaedics SA

The 22 specialists of Orthopaedics SA represent the largest private orthopaedic group in South Australia, providing expert medical care for patients of all ages. We treat bone and joint problems relating to arthritis, degenerative conditions, sports injuries, trauma, fractures and genetics.

Should a patient require surgery, we tailor our evidence based approach to each individual. Our surgeons are leaders in joint replacement and arthritis surgery, as well as innovators in minimally-invasive and arthroscopic surgery.
