Joint replacement surgery  
Anterior Hip Replacement

Consulting from  
North Adelaide  
Ashford  
Flinders Private  
Mount Barker  
Stirling  
Victor Harbor

Dr Jonathan Cabot is an Orthopaedic Surgeon specialising in hip, knee and shoulder surgery, with a particular interest in minimally invasive joint replacement, direct anterior hip replacement and arthroscopic (key-hole) surgery. Dr Cabot manages patient conditions associated with arthritis, trauma & sports injuries, supporting their return to an active lifestyle. With significant experience, both locally and overseas, he employs an evidence based approach, coupled with the latest technology and techniques, to ensure the best possible outcomes are achieved for his patients.

With Orthopaedics SA, Dr Cabot consults privately at North Adelaide, Ashford, Flinders Private, South Coast District Hospital, Stirling and Mount Barker. He is also an Orthopaedic Specialist at Flinders Medical Centre and the Repatriation General Hospital.

Graduating from The University of Adelaide in 1999, Dr Cabot obtained his fellowship with the Royal Australian College of Surgeons (Orthopaedic Surgery) in 2010. He then went on to complete an additional two years' post-fellowship training in arthroscopic sports medicine at the Fowler Kennedy Sports Medicine Clinic (Ontario, Canada) and hip and knee replacement surgery at the Royal Bournemouth Hospital (Bournemouth, UK).

## About Orthopaedics SA

The 22 specialists of Orthopaedics SA represent the largest private orthopaedic group in South Australia, providing expert medical care for patients of all ages. We treat bone and joint problems relating to arthritis, degenerative conditions, sports injuries, trauma, fractures and genetics.

Should a patient require surgery, we tailor our evidence based approach to each individual. Our surgeons are leaders in joint replacement and arthritis surgery, as well as innovators in minimally-invasive and arthroscopic surgery.
