Specialising in
Knee surgery
Joint replacement
Sports injury

Consulting from
North Adelaide
Ashford
Murray Bridge

Dr Mario Penta is an Orthopaedic Surgeon with a particular interest in knee surgery, sports injuries and joint replacement surgery. Placing great importance on providing care from locations that are convenient to his patients, Dr Penta practises privately at various locations across metropolitan Adelaide, and as far out as Murray Bridge.

He consults from North Adelaide, Ashford and Murray Bridge, and operates at Memorial, Ashford, Flinders Private and Murray Bridge Soldiers' Memorial hospitals, as well as Noarlunga Health Services. He also holds public appointments as a Visiting Orthopaedic Surgeon and Senior Clinical Lecturer in the Department of Orthopaedics and Trauma at Flinders Medical Centre.

After completing his basic medical training at the University of Adelaide in 1986, Dr Penta entered the Family Medicine Program, working as a General Practitioner for two years before embarking on a career in orthopaedic surgery. He returned to study and was awarded the higher degree of Master of Surgery in 1996, and obtained a Fellowship of the Royal Australasian College of Surgeons in 1997. Dr Penta then travelled extensively in 1998, visiting centres of orthopaedic excellence in the UK, Sweden, Germany and Italy before commencing private practice. He is a Fellow of both the Royal Australian College of Surgeons and the Australian Orthopaedic Association, applying best practice by accessing and contributing to resources of these organisations.

About Orthopaedics SA

The 22 specialists of Orthopaedics SA represent the largest private orthopaedic group in South Australia, providing expert medical care for patients of all ages. We treat bone and joint problems relating to arthritis, degenerative conditions, sports injuries, trauma, fractures and genetics.

Should a patient require surgery, we tailor our evidence based approach to each individual. Our surgeons are leaders in joint replacement and arthritis surgery, as well as innovators in minimally-invasive and arthroscopic surgery.
